Professional Experience

Associate Software Developer 02/2025
WORKLINE Chennai, India

- Implemented **Mobile Application & Device Management (MDM)** solutions using **Microsoft Intune**, configuring compliance policies, application security, remote access controls, and data loss prevention for HRMS environments.
- Contributed to **privacy and incident response initiatives** by assisting in HRMS-aligned privacy frameworks, researching real-world data leaks and phishing cases, and using **Microsoft Excel** to manage structured data and support security reporting.

Team Leader Incoming Corporate Sector 01/2024 – 02/2025
AIESEC Pune, India

- Scaled global exchange initiatives through a **data-driven, structured approach**, building partnerships with companies, NGOs, and academic institutions across **20+ countries**, while managing CRM workflows and stakeholder communication.
- Led cross-functional teams and international relations, driving market-informed strategy, successful intern placements, and measurable program growth while mentoring peers into higher leadership roles.

Projects

AI-Driven Data Privacy & Cybersecurity Tracking System 08/2025 – Present
Aims to build an **AI-powered corporate cybersecurity solution** that secures, monitors, and tracks sensitive company data across digital and offline sharing channels. The system will function as a **B2B enterprise software suite**

MAM, MDM Implementing Microsoft Intune

02/2025

Mobile application management, Mobile device management using Microsoft Intune, implementing policies for device compliance, application security, logically segregating data and data loss prevention.

Phishing Detection Software

07/2024

Software solution designed to detect phishing scams in websites and applications, providing enhanced security and protection against fraudulent online activities.

Finger Counter System ML

05/2023

Machine learning software that uses a laptop and camera to detect hand gestures, allowing users to control the system. This technology is particularly beneficial for people with visual impairments.
